## Quick Reference for Basic Validation of Advance Directive

### Validation

**Step 1:** Make sure all pages are present and legible.

**Step 2:** Check for signatures and dates (*there should be at least FOUR*):

- Patient
- **Two Witnesses** – *signature date must match the patient's signature date.*
  - Cannot be:
    - Patient advocates.
    - Patient's spouse, parent, child, sibling, or grandchild.
    - Known heir at time of signing or presumptive heir (example – son-in-law).
    - Employees of healthcare or insurance agencies providing services to the patient.
- **At least one Patient Advocate** – *may be signed on a different date than the patient's signature date.*
  - If not present and cannot be found, may use addendum page for patient advocate signature – once completed scan into EMR with full AD.
  - FYI – All Advance Directives from the VA do not have patient advocate signature pages – an addendum page is needed outside of the VA.

**Step 3:** Contact Information: If the Patient Advocate's contact information is not present on the document and not in the EMR, ask the patient to provide phone numbers and add them to the Contact list.

If the document appears to be invalid due to one of the above concerns, share with the patient the document may not meet all the requirements, and you would like to offer follow-up and contact Tracy via CHAT message, email, or phone – [tbarger@chs-mi.com](mailto:tbarger@chs-mi.com) or ext. 36292. The document should still be scanned into EPIC.

**Scanning:** Documents should be scanned into the EMR so they are available at time of a crisis.

Please do not scan if already present – *duplicates increase workflow during a crisis, only rescan if signatures or contact information was added.*

After scanning confirm document was scanned correctly:

- All pages present and visible
- Scanned as an “Advance Directive” document type
- In the description, the date the patient signed should be entered using the following format: “year/month/day Signed” – ie. “2018/04/12 Signed”

**If you have any questions, please contact Tracy Barger at 989.583.6292.**
